

The Government's PE funding

Action Plan 2023-2024 (Evaluated)

Schools in England and Wales receive money from the government to help support and improve physical education (PE) and sport in primary schools. This money was allocated as extra funding directly to primary headteachers. Ofsted expect schools to report on PE and sport provision and on how schools spend this additional funding by publishing information on their website.

The Department for Education states that schools should use the PE Premium to:

- develop or add to the PE, physical activity and sport that your school provides
- build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years.

The Department for Education also states that the PE Premium should be used to secure improvements in the following five indicators:

1. Engagement of all pupils in regular physical activity
2. Profile of PE and sport is raised across the school as a tool for whole-school improvement
3. Increased confidence, knowledge and skills of all staff in teaching PE and sport
4. Broader experience of a range of sports and activities offered to all pupils
5. Increased participation in competitive sport

Schools can choose how they use the funding, for example to:

- hire specialist PE teachers or qualified sports coaches to work with primary teachers during PE lessons
- support and involve the least active children by running after-school sports clubs and holiday clubs
- provide resources and training courses in PE and sport for teachers
- run intra-school and inter-school sport competitions or increase pupils' participation in the School Games

In 2023 – 2024, Fordcombe School is due to receive £16,600 worth of funding through the Government’s PE funding formula. The table below shows how this money has been allocated and is proposed to be spent.
